DEGSON

Degson Electronics Co., Ltd.

Terminal Blocks, Heavy Duty Connectors, SMPS & Panel Connectivity

DEALER & SUPPLIER

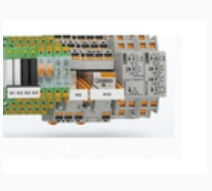

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

Degson is a world-renowned manufacturer of electrical connection technology, industrial electronic components, and control cabinet accessories. With global certifications including UL, VDE, and CE, Degson delivers vibration-proof DIN-rail terminal blocks, heavy-duty multipole industrial rectangular connectors, high-efficiency DIN-rail SMPS power supplies, slim PLC relay modules, and panel infrastructure accessories designed for demanding industrial automation environments.

- Modular DIN-Rail Terminal Blocks: Push-in (PT), screw clamp, spring-cage, and multi-tier disconnect terminals
- Industrial DIN-Rail SMPS Power Supplies: High-efficiency 12V, 24V, 48V DC outputs with robust short-circuit protection
- Complete Panel Wiring Infrastructure: Industrial Ethernet switches, surge arrestors, DIN rails, PVC wire ducts, lugs, and junction boxes
- HEAVYCON Heavy Duty Multipole Connectors: IP65 / IP67 / IP68 die-cast aluminium hoods, bases, and inserts
- Interface Relay Boards & Ultra-Slim 6.2mm PLC Relays with LED status and reverse polarity protection

INDUSTRIAL CONNECTIVITY & TERMINAL BLOCKS

DIN-Rail Modular Terminal Blocks

Push-in & Screw

Universal feed-through, ground, multi-level disconnect, and fuse terminal blocks with tool-free push-in technology and vibration-proof screw clamps.

• Wire Range: 0.2 mm² to 95 mm² • Rated: 800V / up to 232A • Cross-connect bridging CLIPLINE compatible • UL94 V-0 flame-retardant housing

Heavy Duty Multipole Connectors (HDC)

IP65 / IP67 HDC

Rugged die-cast aluminium alloy hoods, bulkhead and surface-mount housings, and modular pin inserts (6 to 216 poles) for harsh factory environment wiring.

• Protection Rating: IP65 / IP67 / IP68 • Current: 10A to 100A per contact • Screw, crimp, and push-in spring pin inserts • Salt-spray and vibration resistant

Circular Sensor / Actuator Cables & Connectors

M8 / M12 Cables

Overmolded M8, M12, and 7/8" sensor and fieldbus connection cables with A, B, and D coding for sensor-to-panel connectivity.

• M8 & M12 (3, 4, 5, 8-pin) • IP67 / IP68 waterproof rating • Oil-resistant PUR / PVC jacket • Pre-molded with straight and 90° angled options

PANEL POWER, ELECTRONICS & ACCESSORIES

Industrial DIN-Rail SMPS Power Supplies

DIN-Rail SMPS

High-reliability industrial switch mode power supplies designed for 24V DC control cabinet systems, instrumentation, and PLCs.

• Output: 12V, 24V, 48V DC (30W to 480W) • Efficiency up to 92% • Wide AC input range with active PFC • Overload, overvoltage & short-circuit protection

Interface Relay Boards & PLC Coupling Relays

PLC Relays

Ultra-compact 6.2mm PLC interface coupling relays and multi-channel relay modules (4, 8, 16 channel) with pluggable sub-miniature relays.

• Control Voltages: 12V, 24V DC / 230V AC • Contact Rating: 1 CO / 2 CO (6A/10A) • Integrated LED coil status & free-wheeling diode • Space-saving DIN rail design

Panel Accessories: Ethernet Switches, Ducts, Arrestors & Boxes

Panel Infrastructure

Turnkey panel building supplies including unmanaged industrial Ethernet switches, DIN rail surge arrestors, slotted PVC wiring cable ducts, copper cable lugs, and IP66 junction boxes.

• 5 to 8 port DIN-rail Ethernet switches • Type 2 Surge Arrestors (40kA) • Zinc-plated & aluminium DIN rails 35x7.5 / 35x15 • Self-extinguishing slotted PVC wire ducts
