HONEYWELL AUTOMATION

Honeywell Process & Building Solutions

DCS, Experion LX, MasterLogic PLC, Field Instruments & Gas Detection

DEALER & SOLUTIONS PARTNER

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

Comprehensive Honeywell Automation solutions encompassing Experion Control Systems, MasterLogic PLCs, SmartLine Field Transmitters, Gas & Flame Detection, and Fire Alarm systems as detailed in industry benchmarks.

- Experion LX DCS and MasterLogic ML-200 / ML-50R redundant programmable logic controllers
- Honeywell Gas Detection (Sensepoint XCD, Optima Plus, Midas) for toxic and combustible gases
- OneWireless network solutions with ISA100.11a industrial mesh standard
- SmartLine industrial transmitters with industry-leading accuracy (0.0375%) and modular design
- Intelligent Addressable Fire Alarm and Security Solutions (Notifier by Honeywell & VESDA)

CONTROL SYSTEMS & SCADA

Honeywell Experion Control System (DCS & LX)

Experion DCS / LX

Distributed control system unifying controller networks, batch management, plant safety, and advanced process control.

• Fault-tolerant controller architecture • Integrated alarm & historian management • High-fidelity simulation support

MasterLogic PLC (ML-200 / ML-50R)

MasterLogic PLC

Redundant, high-speed industrial programmable controller delivering DCS-grade reliability at a modular PLC price point.

• CPU redundancy with sub-millisecond bump-less transfer • IEC 61131-3 logic programming • Fiber optic I/O networks

Experion HS & Visu+ SCADA Solutions

Compact, pre-configured SCADA solution tailored for mid-sized process plants, utilities, and pharmaceutical manufacturing.

• Pre-built graphic symbols & faceplates • Trend charts and Excel reporting • Native OPC client & server

FIELD INSTRUMENTS & GAS/FIRE SAFETY

Process Field Instrumentation (SmartLine)

SmartLine Transmitters

SmartLine differential, gauge, and absolute pressure transmitters (ST800, ST700), temperature, guided wave radar level, and mass flowmeters.

• Accuracy: ±0.0375% of span • Modular sensor and electronics replacement • HART 7 & Foundation Fieldbus • Polarity-insensitive wiring

Honeywell Gas & Flame Detection Systems

Gas & Flame Detection

Sensepoint XCD, Optima Plus infrared, and Midas extractive toxic gas monitoring for hazardous chemical environments.

• Flammable, Toxic, Oxygen, and CO2 sensors • Explosion-proof ATEX / IECEx certified housings • 4-20mA & Modbus output

Honeywell Fire Alarm & Security Solutions

Intelligent addressable fire alarm panels (Notifier), VESDA aspirating smoke detection, and building security integration.

• Early warning air-sampling detection • EN54 and UL certified panels • Graphic emergency response workstation

OneWireless Industrial System Solutions

Industrial wireless mesh network operating on the ISA100.11a standard for wireless transmitters and monitoring points.

• Self-healing mesh architecture • Battery life up to 10 years on field instruments

OFFICIAL COMMERCIAL QUOTATION & TECHNICAL SUPPORT

To request an instant pricing quotation, OEM warranty validation, or technical submittals for this brand:
