JUMO INDIA

JUMO India Pvt. Ltd. (JUMO GmbH & Co. KG)

Precision Temperature, Pressure, Humidity & Liquid Analysis Instrumentation

DEALER & SUPPLIER

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

JUMO is a world-class German manufacturer of industrial sensor and automation technology. JUMO's portfolio covers the complete measurement chain: from temperature, pressure, and humidity probes to paperless recorders and liquid analysis instruments.

- High-precision RTD temperature probes (Pt100/Pt1000 Class A/AA) and thermocouple assemblies
- LOGOSCREEN paperless recorders compliant with FDA 21 CFR Part 11 electronic records
- TRON microprocessor controllers with advanced multi-channel program control
- Sanitary pressure transmitters with flush diaphragms for pharmaceutical & food industries
- Liquid analytical sensors for pH, redox, electrolytic conductivity, and dissolved oxygen

TEMPERATURE MEASUREMENT & RECORDING

RTD Temperature Probes & Elements

RTD Pt100 / Pt1000

Screw-in, push-in, and sanitary Pt100/Pt1000 resistance thermometers with mineral-insulated cable and terminal heads.

• Measurement: -200°C to +600°C • Tolerance Class A, 1/3 DIN, 1/10 DIN • Stainless steel thermowells

Industrial Thermocouples

Single and duplex thermocouples (Type J, K, N, S, R, B) for furnaces, molten metals, and high-temp flues.

• Range up to 1800°C • Ceramic protective tubes (Pythagoras, Alsint)

Temperature Transmitters & Switches

Head-mounted and DIN-rail programmable transmitters (dTRANS T01/T02/T05) and mechanical dial/capillary thermostats.

• 4-20mA, HART, IO-Link outputs • Galvanic isolation 3.75kV

LOGOSCREEN Paperless Recorders

21 CFR Part 11

State-of-the-art paperless chart recorders with touchscreen, batch reporting, FDA 21 CFR Part 11 security, and web server.

• Up to 24 universal analog inputs • Audit trail & tamper-proof data storage • Ethernet / Modbus TCP

Wireless Temperature Sensors (Wtrans)

Radio transmitter probes for wireless temperature acquisition in rotating tanks, autoclaves, and moving parts.

• 868.4 MHz radio band • Transmission range up to 300m

PRESSURE, HUMIDITY & LIQUID ANALYSIS

Industrial Pressure Transmitters (MIDAS / dTRANS p)

MIDAS Series

Piezoresistive and ceramic capacitive pressure transmitters for liquids, steam, gases, and sanitary hygienic lines.

• Ranges: 0-10 mbar to 0-1000 bar • Sanitary clamp, SMS, Varivent connections • Accuracy up to 0.05%

Level Probes & Melt Transmitters

Hydrostatic submersible level probes for deep wells, boreholes, and tanks, plus melt pressure sensors.

• Submersible PUR/FEP cables • Overvoltage lightning protection

Humidity Transducers & Hygrostats

Capacitive relative humidity and temperature transmitters for HVAC cleanrooms, chambers, and drying rooms.

• Range: 0 to 100% RH • Operating temp -40°C to +180°C

Liquid Analysis & TRON Controllers

Sensors and transmitters for pH, ORP, conductivity, turbidity, and chlorine, alongside TRON multi-channel controllers.

• AQUIS touch multi-channel display • Flow measurement integration

OFFICIAL COMMERCIAL QUOTATION & TECHNICAL SUPPORT
