OFFICIAL BRAND CATALOGUE • AUTOMATION

PHOENIX CONTACT

Phoenix Contact India Pvt. Ltd.

Panel Internal Products, Connectivity & Industrial Automation

DEALER & SUPPLIER

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

Phoenix Contact is a global market leader in electrical engineering, connection technology, and automation. We offer complete panel internal solutions including terminal blocks, power supplies, Ethernet switches, relay modules, surge protection, and cable management accessories.

- CLIPLINE complete unified terminal block system with Push-in (PT) and Screw (UT) connections
- RIFLINE complete & PLC-INTERFACE ultra-slim 6.2mm relay coupling boards
- Industrial Ethernet switches with Gigabit and PROFINET/EtherNet/IP priority
- QUINT & TRIO POWER industrial power supplies with Selective Fuse Breaking (SFB) technology
- Comprehensive Surge Voltage Protection (SPD) according to IEC 61643-11

PANEL CONNECTIVITY & INTERNAL COMPONENTS

Terminal Blocks & Distribution Blocks

Push-in & Screw

Push-in Technology (PT), screw clamp (UT), spring-cage (ST), and multi-level disconnect terminal blocks.

• Wire range: 0.14 mm² to 300 mm² • Vibration-proof • Bridging system CLIPLINE complete

SMPS & Industrial Power Supplies

QUINT & TRIO

QUINT POWER, TRIO POWER, STEP POWER, and UNO POWER high-reliability DIN rail power supplies.

• 12V, 24V, 48V DC outputs • SFB technology (Selective Fuse Breaking) • Efficiency up to 94%

Industrial Ethernet Switches

Ethernet Switches

Unmanaged and managed DIN-rail Ethernet switches for reliable factory network infrastructure.

• 5 to 16 RJ45 ports • Gigabit & fiber optic SC/ST options • PROFINET / EtherNet/IP conformance

Relay Modules & PLC Relay Boards

Ultra-slim 6.2mm PLC-INTERFACE coupling relays, electromechanical and solid-state pluggable relays.

• 1 CO / 2 CO contacts • 6.2mm width saves 70% space • Integrated status LED and freewheeling diode

Surge Arrestors & Lightning Protection

Type 1, Type 2, and Type 3 surge protection devices (PLUGTRAB & VALVETRAB) for power and signal lines.

• Pluggable surge protective modules • Mechanical and remote fault signalling • SPD for 230/400V mains

Panel Accessories: DIN Rails, PVC Ducts & Junction Boxes

Zinc-plated and aluminium DIN rails, slotted PVC wiring cable ducts, industrial junction boxes, and cable glands.

• DIN Rail 35x7.5 & 35x15mm • Halogen-free PVC wire ducts • IP66 / IP67 die-cast and polyester enclosures

SAFETY RELAYS & INDUSTRIAL ELECTRONICS

Safety Relays (PSRmini & PSRclassic)

SIL 3 / PL e

Emergency stop, safety gate, light curtain, and two-hand control monitoring relays with force-guided contacts.

• SILCL 3 according to IEC 62061 • PL e according to ISO 13849-1 • Compact 6mm & 12mm widths

PCB Connectors & Heavy Duty Rectangular Connectors

COMBICON PCB terminals and HEAVYCON robust aluminium die-cast rectangular connectors for harsh factory environments.

• Screw, push-in, and crimp inserts • IP65 / IP67 / IP69K sealing

OFFICIAL COMMERCIAL QUOTATION & TECHNICAL SUPPORT
