OFFICIAL BRAND CATALOGUE • AUTOMATION

RENU ELECTRONICS

Renu Electronics Pvt. Ltd.

Industrial PLCs, HMIs, Smart Gateways & Distributed I/O

DEALER & SUPPLIER

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

Renu Electronics is a premier manufacturer of factory automation solutions including Programmable Logic Controllers (PLC), Touchscreen Human Machine Interfaces (HMI), Combined HMI with built-in I/O, Remote I/O units, and IoT Gateways.

- FlexiPanels Touchscreen HMIs ranging from 3.5" up to 15" with high-resolution TFT
- All-In-One HMI + PLC combo reducing panel space, wiring, and engineering cost
- Free programming software suite with rich symbol libraries and recipe management
- FlexiLogics Micro and Modular PLCs with high-speed counting and analog PID
- Multi-protocol connectivity: Modbus RTU/TCP, BACnet, Profinet, EtherNet/IP, CANopen

PLCS, HMIS & COMBO AUTOMATION UNITS

FlexiLogics Modular & Micro PLCs

FlexiLogics PLC

Compact DIN-rail programmable logic controllers with expandable digital/analog I/O and high-speed motion PTO.

• Up to 256 I/O points • RTC built-in • IEC 61131-3 programming (Ladder, FBD, ST) • Dual serial and Ethernet ports

FlexiPanels Graphic Touchscreen HMIs

FlexiPanels HMI

Industrial operator panels from 3.5" to 15" with 65K colors, resistive touch, and rugged IP66 front bezel.

• Display: 3.5", 4.3", 7", 10.1", 12.1", 15" • USB host, Ethernet, Dual serial • Data logging, trending, and alarm handling

FlexiPanels HMI with Integrated I/O (Combo Units)

HMI + I/O Combo

Combined HMI and PLC in a single compact housing, with integrated digital inputs, relay/transistor outputs, and analog channels.

• Eliminates external PLC wiring • Pluggable I/O options (16DI/12DO, Analog 4-20mA) • Cost-effective OEM solution

Field I/O & Remote Distributed I/O Modules

DIN-rail remote I/O slice modules connecting digital, thermocouple, RTD, and analog signals via RS485 Modbus or Ethernet.

• Modbus RTU / Modbus TCP slave • Compact 22.5mm module width • Galvanic channel isolation

Web Panel Series & Industrial IoT Gateways

Smart web panels for HTML5 browser-based SCADA visualization and edge gateways for cloud telemetry (MQTT / OPC-UA).

• Linux-based edge gateway • Cloud connectivity via MQTT/HTTP • Remote machine access

Legacy Products & Protocol Converters

Serial-to-Ethernet converters, RS232-to-RS485 isolated repeaters, and migration cards for legacy machinery.

• Optical isolation 2.5kV • Baud rates up to 115.2 kbps

OFFICIAL COMMERCIAL QUOTATION & TECHNICAL SUPPORT
