WEST CONTROL SOLUTIONS

West Control Solutions (Fortive Group)

PID Temperature & Process Controllers & Limit Devices

DEALER & SUPPLIER

ENGINEERING OVERVIEW & TECHNOLOGY HIGHLIGHTS

West Control Solutions (incorporating WEST, CAL, Partlow, and PMA) provides world-renowned PID temperature controllers, multi-loop automation modules, FM-approved limit devices, and SCR thyristor power controllers for thermal process accuracy.

- Patented easy-tune and pre-tune self-adaptive PID algorithms
- FM-approved high/low safety limit controllers for boilers and thermal plants
- Bright dual 4-digit / 5-digit displays with bar graphs and custom color alerts
- Universal process inputs: Thermocouples (J, K, T, R, S, B, N), RTD Pt100, mA, and VDC
- Modbus RTU, Modbus TCP, Profibus, and Ethernet communications

SINGLE LOOP & MULTI LOOP PID CONTROLLERS

MAXVU Series (MAXVU16, MAXVU8, MAXVU4)

MAX VU16 / VU8

Cost-effective, ultra-compact 1/16 and 1/8 DIN temperature controllers with easy setup wizard.

• Size: 1/16 DIN (48x48mm) & 1/8 DIN • Universal input • High brightness display • Up to 3 outputs (Relay / SSR / DC linear)

CAL Series Temperature Controllers (CAL3300, CAL9300, CAL9400)

CAL3300 / 9400

Famous CAL series miniature PID controller with simple 1-touch auto-tuning and CALgrafix configuration software.

• Sizes: 1/32 DIN (24x48mm), 1/16 DIN, 1/8 DIN • Full PID heat/cool strategy • datalogging via CALgrafix

West Plus Series (West 6100+, 8100+, 4100+, PRO-8)

Highly versatile modular controllers with plug-in output cards, dual setpoints, and remote setpoint input.

• Pluggable I/O modules • Motor valve drive (VMD) algorithm • Transmitter power supply built-in

Pro-EC44 Advanced Dual-Loop Process Controller

Pro-EC44 Advanced

High-tier dual loop profile controller with graphical color text display, 255 segments profile programming, and data logging.

• Dual PID control loop • Cascade / Ratio control • USB data backup • Ethernet Modbus TCP / Web server

MLC 9000+ Multi-Zone Modular Controller

Modular DIN-rail multi-loop system controlling up to 32 temperature loops without panel front cutouts.

• Up to 32 loops • Pluggable loop modules • Fieldbus: Profibus, DeviceNet, Modbus, Ethernet/IP

SAFETY LIMIT DEVICES & SCR THYRISTOR CONTROLLERS

West 4700+ & West 6700+ Safety Limit Controllers

FM-approved high or low limit cut-out controllers with latching safety relay for oven/furnace shutdown.

• FM Approved EN14597 • Latching limit relay with remote/manual reset • Failsafe trip logic

West SCR Thyristor Power Controllers

Precision single, two, and three-phase thyristor units for electrical heating element control.

• Burst firing, zero cross, and phase angle control • Current: 25A to 500A • Integrated current limit and diagnostics

OFFICIAL COMMERCIAL QUOTATION & TECHNICAL SUPPORT
